5	Medical needed devices in the hand luggage (if applicable):
5.1	Do you wish to take along your own oxygen concentrator:
	□ No □ Yes
	Manufacturer name and model name of the oxygen concentrator:
	□ I hereby confirm that the oxygen concentrator is battery powered since a main power supply cannot be guaranteed. I also confirm that the concentrator has a battery life of 150% of the flight time and it is an FAA approved oxygen concentrator. (https://www.faa.gov/about/initiatives/cabin_safety/portable_oxygen/)
5.2	Other medical needed devices in the hand luggage (please indicate):
5.2	☐ I hereby confirm that the mentioned device is approved for air travel.

Condor

6 Declaration by the Passenger:

6.1 Authority to process my Medical Information

In order to enable Condor to confirm my fitness to fly for my booked flights, I hereby explicitly consent to and authorise my doctor mentioned at section 4 above to disclose the necessary information to Condor and their commissioned medical advisors solely for the purpose of determining my fitness to fly and to allow them to fulfil any special assistance requirements. I also explicitly consent to release the attending doctor from his or her obligation to maintain my medical information strictly confidential with respect to the disclosure to Condor. I reserve the right to revoke my consent to Condor to process my medical information at any time, but recognise that this may result in my being deemed not fit to fly and being therefore denied carriage on my booked flights.

6.2 Information about Assistance on Board and Conditions of Carriage

The flight attendants of Condor are not permitted to provide any special medical help or assistance. Our cabin crew are only trained in first aid and are therefore not qualified to administer injections or medicines or any other complex medical procedures beyond simple first aid. You must be reasonably satisfied that you are medically fit to fly. If, despite having received medical clearance, you subsequently do not feel fit enough to fly please inform us immediately. Your flight continues to be subject to our general booking terms and conditions and conditions of carriage.

I hereby confirm that I have taken note of all the information at point 6.1 and 6.2. Ensuing costs related to my medical diagnosis or to the flight itself shall be borne by me unless otherwise regulated by law. I also confirm that all the information provided in this form is true and complete.

Place / Date: _		
Signature:		
	(by hand)	

6.3 Statement of Data Privacy

Condor understands and respects the importance of protecting your personal data.

The information about your health is being collected and processed by Condor Flugdienst GmbH. If you have any questions about this fitness to fly form, you can email us at meda@condor.com and we will be happy to assist you.

By providing information about your health (whether directly to us or through your doctor on your behalf), you have explicitly consented to us collecting information about your health and processing it for the purposes of determining whether you are medically fit to fly on your booked flight. If you provide this information about another person, you are representing to us that they have expressly consented to this.

We need your express consent before we can carry out such processing in respect of your personal data. There is no obligation on you to provide your consent but if you decide not to give your consent we may not be able to fulfil your booking and may not be able to provide you with travel or assistance.

We may disclose information about your health/the health of a person who's legal guardian you are:

- To companies in Condor, third party service providers, such as our specialist aviation medical experts, to the extent that it is strictly necessary for the purposes for assessing your fitness to fly and fulfilling any special assistance requirements;
- To Civil Aviation Authorities, and if necessary, to health authorities and border control;
- If there is more than one person named in your flight booking, or to your travelling companion who is accompanying you to provide assistance;
- Any other person or organisation from whom you have explicitly asked us to obtain or to disclose sensitive personal data about your health e.g. your doctor;

In the event of an emergency or other incident in which you are involved, we may disclose your personal data to persons and organisations involved in the emergency/incident response, and to your family member/s who may contact us requesting information about your wellbeing.

For details about how we collect, process and use information and data about you please read our privacy policy at https://www.condor.com/eu/help-contact/data-protection-policy.jsp.

☐ Yes, I have read and understood the above statement and agree to the processing of my personal data/the data of the person who's legal guardian I am as per the Data Privacy statement above.

For withdrawal of consent, you can send an email to meda@condor.com. You can withdraw your consent to Condor to process your medical information at any time, but recognize that this may result in my being deemed not fit to fly and being therefore denied carriage on my booked flights. If the flight was already booked, there might be cancellation fees.

Medical information (to be completed by the attending doctor)

1	General state of health (compulsory):	2
2	Mobility and need for an escort (compulsory information):	4
3	Medical oxygen (compulsory):	5
4	Respiratory diseases (if applicable):	6
5	Cardiovascular diseases (if applicable):	7
6	Convulsions/epilepsy (if required):	8
7	Psychological impairments and/or psychiatric illnesses (if applicable):	8
8	Injuries/operations in the last 4 weeks (if applicable):	9
9	Other information (compulsory)	.10

1	General state of health (compulsory):
1.1	Date of the diagnosis:
1.2	Diagnosis (including date of first appearance of the symptom for the current disease, accident or therapy, is it contagious?):
1.3	Current complaints, performance impairment:
1.4	Current medication:
1.5	In your opinion, does your patient have a contagious or transmittable disease:
	□ No □ Yes -> Please specify:
1.6	In your opinion, does your patient require hospitalisation at the destination:
	□ No □ Yes -> Measures:
1.7	In your opinion, would a 25% to 30% reduction in the partial pressure of oxygen (relative hypoxia) impair your patient's health (cabin pressure corresponds to a rapid ascent to 2,400 metres / 8,000 feet a.s.l):
	□ Yes □ No □ Not known
1.8	In your opinion, can your patient use a normal passenger seat with upright backrest:
	□ Yes □ No

1.9	-	r opinion, does your patient need medical care (beyond own treatment) and/or I medical devices during the flight:
	1.9.1	On ground at the airport:
	□ No	☐ Yes -> Please specify:
	1.9.2	During the flight:
	□ No	☐ Yes → Please specify:

sory information):
k 100 metres or climb 10-12 steps without assistance
a wheelchair/escort (this is free of cost) for the
s with impaired mobility:
door (WCHS) □ up to seat (WCHC)
□ mentally handicapped (DPNA)
lone and carry out all the activities required on
r from point 3 onwards
embarking/disembarking (by the airport staff)
r from point 3 onwards
ve to be be accompanied by a suitable person.
onwards
paramedic Private person
ovide all the necessary assistance:
onwards paramedic – Private person

3	Medical oxygen	(compulsory):
3.1	In your opini	on, is the administration of medical oxygen on the ground necessary:
	□ No	☐ Yes → Please answer point 4 and please also specify how many litres per minute (LPM) are required on the ground:
3.2	In your opini □ No	on, is carrying or administering medical oxygen during the flight necessary: Yes -> Please answer point 4 and please also specify how many litres per minute (LPM) are required during the flight:

4	Respirato	ory diseases (if applicable):		
4.1	In you	our opinion, does your patient suffer from a respiratory disease:		
	□ No	☐ Yes -> Please answer sub-points 1-6		
	This ar	A current blood-gas analysis (BGA) is necessary for answering the following questions. nalysis must be performed in ambient air and by administration of oxygen when your t needs oxygen on the ground or during the flight. (Please perform the BGA below the ed oxygen volume)		
	4.1.1	Blood-gas analysis in ambient air:		
		pCO ₂ [kPa/mmHg]: pO ₂ [kPa/mmHg]: % saturation:		
	4.1.2	Blood-gas analysis by administration oflitres of oxygen per minute (LPM):		
		pCO_2 [kPa/mmHg]: pO_2 [kPa/mmHg]: % saturation: (If the pO2 value lies below 2 litres of oxygen, or the planned volume of oxygen < 70 mm HG, please perform the BGA with 4 litres of oxygen)		
	4.1.3	Blood-gas analysis by administration of 4 litres of oxygen per minute (LPM):		
		pCO ₂ [kPa/mmHg]: % saturation:		
	4.1.4	Is there any CO₂ retention or hypercapnia:		
		□ No □ Yes Date of the diagnosis :		
	4.1.5	Has the general state of health deteriorated recently:		
		□ Yes □ No		
	4.1.6	Has your patient ever flown with a commercial airline in this state of health:		
		□ No □ Yes when: Did any problems occur:		

5	Cardiova	scular diseases (if applicable):		
5.1	In your opinion, does your patient suffer from a cardiovascular disease:			
	□ No	☐ Yes → Please answer sub-points 1	L-5	
	5.1.1	Angina: In your opinion, does your patient s	uffer from angina:	
		□ No □ Yes -> When did it occur la	ast:	
		Is the condition stable:		
		□ Yes □ No		
		Functional impairments:		
			□ Angina under consi□ Angina under mino	
	5.1.2	Myocardial infarction (heart attack) Does your patient suffer from myoc		
		□ No □ Yes -> When did it occur la	ast:	
		Complications:		
		□ No □ Yes -> Following:		
		Stress ECG:		
		□ No □ Yes -> Result:	MET or	Watt
	5.1.3	Cardiac insufficiency (heart failure): In your opinion, does your patient s		sufficiency:
		□ No □ Yes -> Last decompensation	on on (DD.MM.YY):	
		Is your patient stable under medica	tion:	
		□ No □ Yes		
		Functional impairments:		
		□ No symptoms under normal stress□ Dyspnoea (breathlessness	□ Dyspnoea ui	nder considerable stress
	5.1.4	Syncope		
		□ No □ Yes -> When did it occur la	ast:	
	5.1.5	Were any diagnostic examinations	carried out:	
		□ No □ Yes -> Result:		

6	Convulsions/epilepsy (if required):		
6.1	Did an	Did any convulsions or epileptic attacks occur in the present or in the past:	
	□ No	☐ Yes → Please answer sub-points 1-4	
	6.1.1	Type of convulsions:	
	6.1.2 Frequency of convulsions:		
	6.1.3 When did they occur last:		
	6.1.4	Medication-based anti-convulsant prophylaxis:	
		□ Yes □ No	
7	Psycholo	gical impairments and/or psychiatric illnesses (if applicable):	
	In your opinion, does your patient suffer from a psychological impairment and/or a psychiatric illness:		
7.1	-		
7.1	-		
7.1	psychi □ No	atric illness:	
7.1	psychi □ No	atric illness: □ Yes-> Please answer sub-points a) and b)	
7.1	psychi □ No	atric illness:	
7.1	psychi No 7.1.1	atric illness: □ Yes-> Please answer sub-points a) and b) In your opinion, it your patient likely to suffer from agitation during the flight: □ Yes □ No	

8	Injuries/operations in the last 4 weeks (if applicable):
8.1	Did any fractures occur?
	□ No □ Yes -> Which ones, date of diagnosis and therapy:
	What is the current Hb value? (mg/dl)
8.2	Is your patient immobilised with a plaster? □ No □ Yes-> Since when:
	Closed plaster cast / circular plaster cast
	□ No □ Yes
8.3	In the case of head injuries with fractures and intra-cerebral bleeding and after neurosurgical operations in the last 6 weeks:
	When did the last CCT take place and what was the result?
	Did the results of the last CCT exclude intracranial air pockets?
8.4	After major abdominal operations: What was operated upon and when:
	What is the current Hb value?(mg/dl)

9	Other information (compulsory)				
9.1	What would be your prognosis for your patient's proposed air travel: Good Impaired Poor Justification for your prognosis:				
9.2 Is there any further medical information that has not yet been taken into account:					
Place	e Date				
Stam	p Signature of the physician (or facsimile)
