

Condor's long-haul flights for summer 2014 now open for booking:

Munich to Punta Cana added

Departures from Frankfurt to Cuba and North America

Frankfurt am Main, 4 September 2013 – Condor's long-haul flights for summer 2014 are now open for booking. Last winter saw the first long-haul flights from Munich (MUC) after a six-year hiatus, and next summer Condor's schedule will include another long-haul destination from the Bavarian capital. Holiday-makers travelling to the Dominican Republic will be able to fly non-stop to Punta Cana (PUJ).

Jens Boyd, Head of Group Long-Haul, is delighted with this new development: "Condor already flies from Europe to most holiday destinations in the Caribbean. From next summer, holiday-makers from Germany will now also be able to fly from Munich to the Caribbean. Munich's airport has established itself as an additional long-haul base next to Frankfurt and Vienna."

The North America programme from Frankfurt (FRA) will include an additional flight to Toronto (YYZ) in Canada. Between 20 June and the end of October, Condor will fly to the city on Lake Ontario on Mondays, Wednesdays and Fridays. From summer 2014, there will be all-season flights to Las Vegas (LAS) on Tuesdays, Thursdays, Fridays and Sundays from the beginning of April until the end of November. A further weekly flight is also being added to the popular connections from Frankfurt to Havana (HAV) in Cuba. Travellers will be able to fly direct from Hesse to the biggest metropolis in the Caribbean on Mondays, Wednesdays and Fridays.

The connection to Cape Town (CPT) in South Africa will resume in the summer season of 2014 with effect from 27 September. There is much demand among Condor's customers for the South African metropolis – which comes as no surprise considering it offers the perfect highlights for all tastes. Jens Boyd can well understand the popularity of this destination. "The Cape region has an appealing climate, impressive landscapes and an extensive choice of excursions, which makes this destination perfect for a holiday – and essential in Condor's schedule."
