

**Dear customer,**

An EU ruling on the securing of infants (children under the age of 2) in aircraft has been in force since July 16, 2008. According to the provisions set out under this directive, infants are to be secured either via a loop belt or child safety seat. Condor recommends particularly for infants the use of an approved child safety seat during the flight. **A reservation can be done monday to friday until 48 hours before departure. Please fill out this form and send it to [sonderreservierung@condor.com](mailto:sonderreservierung@condor.com).**

**Important:** Kindly note that we can only accept child safety seats with timely applications. Furthermore our crew is allowed to decline child safety seats which do not meet our requirements. In such instances, the affected child safety seat will be taken into the cargo hold free of charge. In this case infants will be secured by loop belts on an adults lap. A refund for the Infants seat booking is not possible.
