

Dear customer,

An EU ruling on the securing of infants (children under the age of 2) in aircraft has been in force since July 16, 2008. According to the provisions set out under this directive, infants are to be secured either via a loop belt or via child safety seats. Condor recommends particularly for infants the use of an approved child safety seat during the flight. **Please be advised to register the child seat 48 hours before departure (kindersitze@condor.com).**

* **Römer King Quickfix child seat:** The Römer King Quickfix with approval number 3301122 is now no longer made. Should you own this type of seat and want to take it on board, you must first modernize the child seat. To do this, you need to order the label, the belt retractor and the accompanying use instructions under item no. 14750380, as a complete set, from a specialty store for children's products, or from any ADAC office.

* **Römer Baby Safe Plus:** The new Römer Baby Safe Plus with approval number 3301146, bears the label "for use in aircraft". If you own an older model of the Römer Baby Safe Plus, you can modernize this for use in the aircraft. To do this, you must order the "for use in aircraft" label (with TÜV-ID-NO.: 9811400300) with item number 1023026, and the accompanying use instructions with item number 1906601, from a specialty store for children's products or from any ADAC office.

Herby I declare that the costs caused by the application for the child seat may be debited from the bank account or credit card above.

Kindly note that we can accept only applications 5 days before departure or earlier. Furthermore our crew is allowed to decline child seats which do not meet our requirements. The affected seat will be taken into the cargo hold free of charge. In this case infants will be secured by loop belts on a adults lap. A refund for the Infants seat booking is not possible.
